

# RESEARCH STUDIOS

**ENHANCE THE QUALITY OF YOUR NURSING HOME CLINICAL TRIALS!**  
TAILORED, EXPERT GUIDANCE & FEEDBACK

**Check out available appointments  
at [nextstepsnetwork.org](https://nextstepsnetwork.org)**

Designing rigorous nursing home (NH) research comes with unique challenges. Our NEXT STEPs Research Studios are here to help investigators navigate them with confidence.

Participants will submit a draft aims page and relevant materials in advance, allowing the session to dive directly into the questions that matter most for designing and conducting high-quality NH clinical trials.

We encourage participation from researchers who are developing a proposal and would benefit from expert support in refining and advancing towards implementation.

## MORE INFORMATION
